*Freelance programmer passionate about computing since always, I particularly enjoy working on a wide variety of projects ; applications, websites, video games, etc.
Of an organized and tenacious character, when I embark on a project I carry it out!*

*Active for many years, I acquired a strong professional experience and broad skills. This accumulated know-how is my main asset, and my clients appreciate that I share it with them.
Thanks to the trust of my clients I had the opportunity to work on big projects with heavy responsibilities.*

My main motivation is the desire to provide a quality service to my clients. The profitability of your IT projects requires quality programming!
